**Tri-Stat/Guardians of Order made a variety of BESM splatbooks for popular anime of the time including Trigun, Dominion: Tank Police, Slayers, Shōjo Kakumei (Revolutionary Girl) Utena, Demon City Shinjuku, and Tenchi Muyo! These books can often be found on eBay.*

***Fandom wikis can prove to be very helpful free sourcebook guides to any franchise universe you are unfamiliar with. Most have locations, characters, items, plots, and more. Have fun!*

****Often, if there's one system listed here, others related to the franchise were created as well. I've done my best to include the most affordable and known options. Older, out of print options may exist which I haven't listed yet.*
