

Da Archive Annex
DEC 21st, 2017

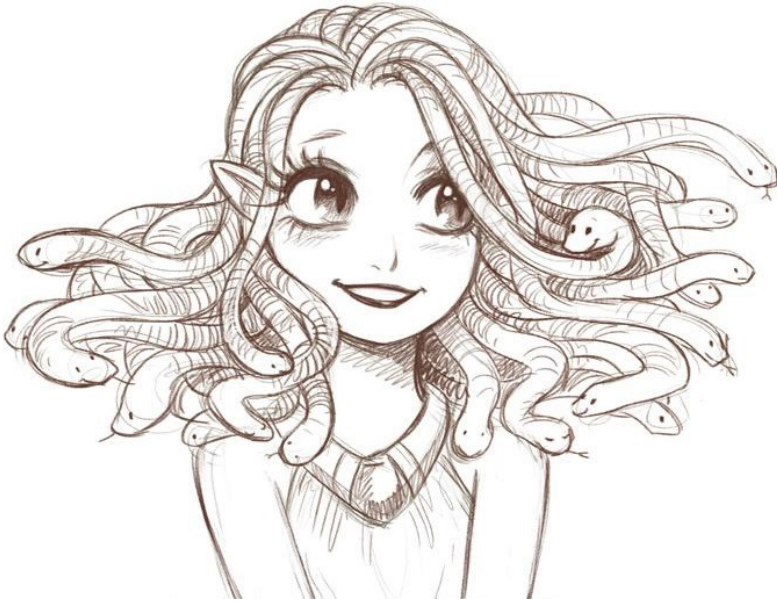

New links will be placed here for a while before adding them to Da Archive.

PLEASE BUY A COPY OF THE BOOKS THAT YOU USE.

If you can't understand why you should support your game, go work at Burger King for 2 weeks for no pay and you might get a clue.

Sorry for the incomplete links and L33t gibberish.

This way seems to be a good idea, what with all the matrixbots and cyber crotchspiders out there.

zippyshare.com is strange, there are numbers after the 'www' i.e. www57.zippyshare

ss, @SS or \$\$ is Send Spaace, m3g@ is Megaa, <d0t> is a period or dot as in dot com, etc.

There is a u\$ercl0ud and a u\$er\$c1oud, be careful to go to the correct one.

Anon Has Pointed Out That A Few Sites Used Have Unwanted Clutter That Can Be Annoying.

“Be warned the site it's on is rife with malware traps.

When you figure it out make sure the file you're saving is a .PDF and not the same thing with .EXE stuck on the end. The second one is a million bad programs that eat your compooter like I eat Cheetos.”

Special thanks to Mageguru, Da Archivist, Here!, Agent13, TheWiz!, The Warden, Fat Charley, Blink_Dog, DiosMios, Porthos, The Greyhawk Ranger, Fitz-Empress bani Flambeau, helpful, CityofCarse, donkey, Magister Man, The_Guild, ABF, 3DoorsDownDude, Smink, All the Awesome Curators, and the entire Anon Brigade.

Extra Special thanks to the Pioneers who paved the way.

Like Anons say;

**Thanks to all the anons here that provide us with their files and/or help!!!

Fun and Educational!

What methods do people prefer to add OCR to a PDF? smallpdf.com does a pretty good job of lossless compression

OCR shouldn't be affecting the compression of the image in the PDF by default. Unless you are setting the OCR to downsample a 300dpi page to 150dpi while performing the OCR. In which case you should set the OCR downsample to match the actual page dpi.

But honestly if the PDF consists pages that are just images, you should extract them in Photoshop, and reduce the resolution to 150dpi with the bicubic sharper option (Does a better job of downsampling than Acrobat), save to PNG, and recreate the PDF, then OCR @ 150dpi.

Archive of what gets shared in each of these threads. Hopefully that will give people another chance to grab them. You'll need Resilio Sync to access them, this link will take you where you need to go.
if you don't have pro, you can't choose individual files but you can try Pro for 2 weeks, so for that time you'll be able to cherry pick. Otherwise you can have the lot, if you need something that's in there then this will be one more way to get it.
